SUMMARY

Fresh graduate with a bachelor's degree in Information Technology, specializing in Backend Development using Laravel. Has experience in building and developing PHP and Laravel-based web applications, including REST API creation, database management, and authentication and authorization implementation. Familiar with MySQL, Git, and MVC concepts, and understands structured and scalable application development practices. Possesses strong problem-solving skills, quickly learns new technologies, and is capable of working independently or in a team to deliver efficient and reliable backend solutions.

WORK EXPERIENCE

SMK Binakarya Mandiri – Intern *September – December 2024*

- Designing and developing a Teacher Performance Assessment application using Laravel & MySQL, automating manual administrative processes into an integrated digital system.
- Designing relational database schemas, implementing efficient CRUD features, and ensuring data integrity for annual performance reporting.
- Identify and resolve technical issues in the school's operational systems, and increase the operational time of learning and teaching support devices to 95%.
- Prepare technical documentation and system maintenance reports.

PT Fajar Langgeng Sejahtera - Intern *July – September 2022*

- Manage the company website's content management system (CMS), ensuring the accuracy of stock data and product specifications for daily e-commerce operations.
- Supporting digital marketing activities through dynamic website content updates in line with business strategy requirements.
- Coordinate with the warehouse team to synchronize product stock in real time on the website system to prevent overselling.

EDUCATION

Universitas Bina Sarana Informatika *2021-2025*
S1 Teknologi Informasi
IPK: 3.83/4.00

SKILLS

TECH STACK

Laravel, PHP, MySQL, MongoDB, REST API, Git, GitHub, Postman, JavaScript, Next.js

HARD SKILL

- Laravel & PHP Backend Development
- RESTful API Development
- MySQL & MongoDB
- Git & GitHub
- Basic Networking (LAN, IP, Internet)
- Postman

SOFT SKILL

- Problem Solving & Analytic Thinking
- Time Management
- Communication and teamwork
- Adaptive to new environments
